TCEQ Trade Fair and Conference May “Meeting”

Inside this issue:

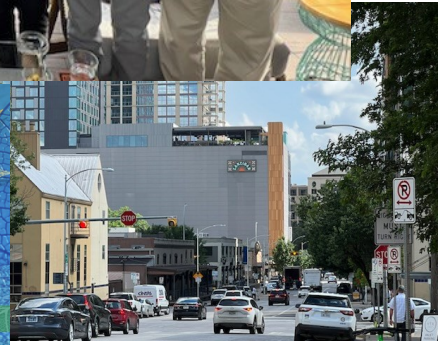

June Meeting 2

Events and Meetings to Come 2

DID YOU KNOW...?

- As beautiful as fire-works are, they release smoke, metal particles, debris, and flammable toxins into the atmosphere that does not break down easily.
- Using a reusable water bottle could save 156 plastic bottles annually
- Bug spray that contain DEET are effective, but take a long time to break down in soil
- Natural heat and sunshine can dry your clothes in a more environmentally conscious way than a conventional clothing dryer

TCEQ Trade Fair was held May 16-17, 2023 at the Austin Convention Center and some of our members did attend sessions that offered professional development and training.

It was a great opportunity for several members who met at Zanzibar to network with other environmental professionals for a night of fun!

For more information about this opportunity, email the [Chapter](#) or check out TCEQ Trade Fair's [link](#).

Compliance Corner

Technical Session—June Meeting

Our June technical session meeting was held on the 2nd at the Austin FD presented by Chief David Bishop of the Special Operations division.

The Special Ops Battalion includes five stations. Firefighters respond to all types of incidents and those involving Hazmat and Technical Rescue. They have a “smaller footprint” of resources and a geographical distribution of stations.

This was a great tour and opportunity to meet this team!

For more information, email the [Chapter](#).

Events and Meetings...

Join us:

- **Meetings:** generally held the first Friday of each month from 12:00 pm-1:00 pm
- **July 14th:** SAVE THE DATE—Anniversary Celebration

Contact us if:

- You know anyone who would like to present or if you have a topic for a technical presentation
- You would like to post a job

April Meeting

This was a Business Meeting for our Chapter, held in person and virtually. For detailed meeting minutes, go to our website via [link](#).

About us...

The Lone Star Chapter of Alliance of Hazardous Materials Professionals is an organization that enhances professional development through networking with other local EHS professionals from a variety of industries, state agencies, and other private entities. The Lone Star Chapter promotes the CHMM/CHMP credential on a national and international level. National AHMP provides regulatory updates and professional conferences. By participating in our local training and being trained in new areas of the profession, members are able to earn CMPs for re-certification. The Lone Star Chapter is committed to opening the doors for many members and welcoming new ones.
